YOUR IMPACT!

Born with biliary atresia, his parents were told by doctors he would probably die of liver cirrhosis by age 1. At age 2 he weighed 15 pounds so he qualified for a liver transplant. There was a stroke at 5 and another at 9; a brain operation and a kidney transplant - 38 operations in all, resulting in a neurological deficit.

With scars on top of scars - he contemplated suicide. But in 2015, Chevi became a World Champion Powerlifter winning 3 golds and 1 silver medal at the Special Olympics World Games in Los Angeles. How was his life transformed? By Special Olympics Kansas (SOKS) and Coach John Lair.

Obviously, there is more to Chevi's story but one thing is sure, it wouldn't have happened without sponsors supporting SOKS events. Your support trains coaches, underwrites competitions, provides health screenings and more. So - if you have any questions about how funds are used, think of Chevi...and the other 5,000+ athletes in Kansas who benefit from participation in Special Olympics.

We ask you to be a **BELOW ZERO HERO!**
